

Notice of Product Discontinuation

May 1, 2025

Dear valued Agilent customer,

We would like to take this opportunity to inform you about an upcoming change to our product offerings. In our ongoing efforts to streamline our portfolio, enhance supply efficiency, and improve our ability to serve you, Agilent has made the decision to discontinue certain 500-sample kits within our Qualitative kit lineup for the Fragment Analyzer.

Effective **November 1st**, the following Fragment Analyzer kits and subcomponents (listed in the table below) will no longer be available for purchase. To ensure you continue to receive the best possible performance, we are transitioning to 1000-sample kits, which are made from the same high-quality components as the 500-sample versions and are the recommended alternatives.

Please refer to the table below for a list of affected products.

We appreciate your understanding and support as we continue to improve our product offerings and better serve you.

Product Discontinuation	Recommended replacement	Discontinuation date
DNF-905-K0500	DNF-905-K1000	November 1st, 2025
DNF-905-0240	DNF-905-0500	
DNF-910-K0500	DNF-910-K1000	
DNF-915-K0500	DNF-915-K1000	
DNF-810-0240	DNF-810-0500	
DNF-930-K0500	DNF-930-K1000	
DNF-930-0240	DNF-930-0500	
DNF-935-K0500	DNF-935-K1000	

Sincerely,

A handwritten signature in blue ink, appearing to read "Marko Marinkovich".
