Agilent Cannabis Testing Solutions
Proven workflow solutions for your complex application needs

Mass Spectrometry
Sample Preparation:
• Enhanced Matrix Removal—Lipid
• QuEChERS and dSPE
Software:
• MassHunter

Instrumentation:
• 7890 Series Triple Quadrupole GC/MS
• 6410 Series Triple Quadrupole LC/MS
• 6500 Series Accurate-Mass Quadrupole Q-TOF LC/MS
• GC/MS/MS Pesticides Analyzer

Molecular Spectroscopy
Instrumentation:
• Cary 630 FTIR
Software:
• MicroLab PC

Liquid and Gas Chromatography
Instrumentation:
• Intuvo 9000 GC
• 7890 Series GC with FID
• 1290 Infinity II Diode Array Detector
Software:
• MassHunter

Gas Chromatography
Instrumentation:
• 7890 Series GC with 7697A Headspace Sampler and Flame Ionization Detector
Software:
• MassHunter
• OpenLab CDS

Atomic Spectroscopy
Software:
• ICP-MS MassHunter
• ICP-MS Expert

Instrumentation:
• 5100 ICP OES
• 7900/7900 ICP-MS
• 8900 ICP Triple Quadrupole ICP-MS

As the global innovator of laboratory technologies, Agilent CrossLab has created the ultimate, collaborative suite of world-class services, supplies, and software depended on by more than 260,000 labs around the globe.
