Purpose of Procedure
To assure that the installation of Agilent instruments and systems can be completed successfully by careful preparation and evaluation of the installation site and by ensuring the availability of appropriate utilities, consumables and supplies.

Customer Responsibilities
Customers should ensure that all necessary operating supplies, consumables and usage dependent items such as columns, vials, syringes and solvents required for the successful installation of instruments and systems are available. In addition, customers must provide the Agilent Support Provider with appropriate administrator-level access to the system during the installation. Installation sites should be prepared in accordance with the following specifications.

Important Information
If you have problems in providing any of the following, please contact your local Agilent office for assistance. Assistance with user specific applications may be provided but should be contracted separately. Users of the instrument should be present throughout the installation and familiarization otherwise important operational, maintenance and safety information may be missed.

Procedure Checklist
A) ChemStore C/S Requirements

PC Hardware Requirements
- Pentium III processor operating at 600 MHz or higher
- At least 128 MB of RAM for a single instrument configuration under Windows 2000 and 256 MB of RAM for Windows XP configurations.
- At least 256 MB of RAM for a multi instrument configuration
- Hard-disk with at least 4 GB capacity
- Display: min. resolution 1024 x 768, more than 256 colors
- For ChemStore clients: Network Interface Card and 10 BaseT network connection with a speed of 10 MB/s, at least.
- A backup device or network-based backup strategy

Software Requirements Operating System
- Windows 2000 Professional with service pack 4 and Internet Explorer 5.5 or higher or
- Windows XP Professional with Service Pack 1a
- User logon with Administrative capabilities

Software Requirements Chromatographic Data system
- ChemStation A.10.01 or higher for
  - A/D (G2172AA)
  - CE or CE/MSD (G1601A/G2201AA)
  - GC (G2070AA)
  - LC or LC/MSD (G2170AA,G2710AA)

B) Additional Requirements for Security Pack
The following requirements only apply if Security Pack G2183AA or G2187AA is installed on top of ChemStore C/S
- At least one NTFS partition configured
- For PCs other than Agilent Bundle PCs: Setup folder permissions as outlined in the document 'Configure XP.pdf' on the ChemStation installation CD. The same settings should be applied on Windows 2000 systems.
- At least one user logon as member of the user group “Power Users” and one user logon as member of the user group “Users” set up.
- Members of the user group "Users" must not be member of the "Power Users" group
