XGS-600 Unit: Tilt Stand Kit

FIELD INSTALLATION INSTRUCTIONS
XGS-600 Unit: Tilt Stand Kit
Warranty

Products manufactured by Seller are warranted against defects in materials and workmanship for twelve (12) months from date of shipment thereof to Customer, and Seller’s liability under valid warranty claims is limited, at the option of Seller, to repair, replacement, or refund an equitable portion of the purchase price of the Product. Items expendable in normal use are not covered by this warranty. All warranty replacement or repair of parts shall be limited to equipment malfunctions which, in the sole opinion of Seller, are due or traceable to defects in original materials or workmanship. All obligations of Seller under this warranty shall cease in the event of abuse, accident, alteration, misuse, or neglect of the equipment. In-warranty repaired or replaced parts are warranted only for the remaining unexpired portion of the original warranty period applicable to the repaired or replaced parts. After expiration of the applicable warranty period, Customer shall be charged at the then current prices for parts, labor, and transportation.

When products are used with toxic chemicals, or in an atmosphere that is dangerous to the health of humans, or is environmentally unsafe, it will be the responsibility of the Customer to have the product cleaned by an independent agency skilled and approved in handling and cleaning contaminated materials before the product will be accepted by Varian, Inc. for repair and/or replacement. Reasonable care must be used to avoid hazards. Seller expressly disclaims responsibility for loss or damage caused by use of its Products other than in accordance with proper operating procedures.

Except as stated herein, Seller makes no warranty, express or implied (either in fact or by operation of law), statutory or otherwise; and, except as stated herein, Seller shall have no liability under any warranty, express or implied (either in fact or by operation of law), statutory or otherwise. Statements made by any person, including representatives of Seller, which are inconsistent or in conflict with the terms of this warranty shall not be binding upon Seller unless reduced to writing and approved by an officer of Seller.

Warranty Replacement and Adjustment

All claims under warranty must be made promptly after occurrence of circumstances giving rise thereto, and must be received within the applicable warranty period by Seller or its authorized representative. Such claims should include the Product serial number, the date of shipment, and a full description of the circumstances giving rise to the claim. Before any Products are returned for repair and/or adjustment, written authorization from Seller or its authorized representative for the return and instructions as to how and where these Products should be returned must be obtained. Any Product returned to Seller for examination shall be prepaid via the means of transportation indicated as acceptable by Seller. Seller reserves the right to reject any warranty claim not promptly reported and any warranty claim on any item that has been altered or has been returned by non-acceptable means of transportation. When any Product is returned for examination and inspection, or for any other reason, Customer shall be responsible for all damage resulting from improper packing or handling, and for loss in transit, notwithstanding any defect or non-conformity in the Product. In all cases, Seller has the sole responsibility for determining the cause and nature of failure, and Seller’s determination with regard thereto shall be final.

If it is found that Seller’s Product has been returned without cause and is still serviceable, Customer will be notified and the Product returned at its expense; in addition, a charge for testing and examination may be made on Products so returned. 3/1/00

XGS-600S: Tilt Stand Kit

Preface

Documentation Standards

This manual uses the following documentation standards:

**NOTE**

Notes contain important information.

**CAUTION**

Cautions appear before instructions, which if not followed, could cause damage to the equipment or data loss.

**WARNING**

Warnings appear for a particular procedure or practice which, if not followed correctly, could lead to serious injury or death.

Kit Components

The Tilt Stand Kit is comprised of:

- One (1) universal 1427D5 Hammond Manufacturing Stand kit
- Two (2) 648099034 self-adhesive rubber bumper feet
- One (1) 699908401 instruction sheet

Since the Hammond Stand kit is a generic kit, some of the parts are not used during this install.

The Hammond Stand kit parts used are shown in Figure 1: Hammond Stand Kit: Parts Used:

- One (1) stand wire form
- One (1) right and one (1) left cam foot
- Four (4) mounting screws
Discarded items appear in Figure 2: Hammond Stand Kit: Discarded Parts.

**Equipment Required**
- Flat head screw driver
Installation Procedure

1. Turn off the power to the unit, wait 30 seconds and disconnect any cables to the unit.
2. Flip the unit on its back with the Front Panel facing front and locate the four mounting holes (Figure 3: Mounting Holes).

![Figure 3: Mounting Holes](image)

Figure 3: Mounting Holes

Figure 4: Cam Feet shows the cam feet. There is one left and one right foot.

![Figure 4: Cam Feet](image)

Left Foot Right Foot
3. Place one of the feet with the notch for the wire stand inward (Figure 5: One Foot Installed) and secure it with two of the screws. Tighten screws snug to the feet. **DO NOT OVER TIGHTEN.**

![Figure 5: One Foot Installed](image)

4. Slip the wire stand into the notch of the mounted foot and leave the wire stand in the upright position (Figure 6: Wire Stand with One Foot).

![Figure 6: Wire Stand with One Foot](image)
5. Slip the other end of the wire stand into the second foot and apply pressure from the outside of the foot to align it with the second set of holes (Figure 7: Foot with Pressure Applied).

6. Insert the two remaining screws and tighten down.

7. Add the two self-adhesive rubber bumper feet into the round depressions on the rear of the XGS-600 enclosure, if not already installed (Figure 8: Adhesive Rear Feet Installed).
