QCI-711 ULTRAcheck™ Solids Quality Check Sample

Please read these instructions carefully before using the quality check sample concentrate.

1. Storing the Sample
   See package label for information on storage conditions and expiration.

2. Preparing the Sample for Use
   This ULTRAcheck sample is ready to use. After this product is opened, it should be used as soon as possible, and properly disposed of within 2 months.

3. Analyzing the Sample
   A blind check sample is used to evaluate the quality of the analytical data generated by the laboratory, so use the method you would normally use to analyze for these particular analytes. Follow all method instructions carefully for best results.

4. Applicable Methods
   Analyte               US EPA Method(s)
   Filterable Residue   160.1
   Non-Filterable Residue 160.2
   Total Residue        160.3

5. Analyte Concentrations
   The certificate showing the reference values and advisory ranges is sealed in an envelope, to be opened after the analysis is completed. The advisory ranges represent QC acceptance criteria for analyte recovery following applicable US EPA methodologies. These ranges are based on interlaboratory data, and are included solely as guides for acceptable performance. Each laboratory should develop criteria for judging acceptable method performance based on the intended use of data.
