

Agilent University Course Catalog

2023 Edition – UK

Maximize the return on your Agilent instrument investments with Agilent training

Maximizing instrument utilization and throughput are high priorities for most labs. But insufficient training and inexperienced new hires are pulling in the opposite direction. Maybe you've seen the signs:

- Frequent errors and rework
- Repeated calls to support lines
- Under-utilized new features and capabilities
- Low throughput and productivity
- Frequent instrument downtime

Agilent University training is a quick and affordable remedy, helping you develop a confident, productive staff, and keeping your lab running at peak performance.

Agilent University has hundreds of courses, covering a broad range of topics and experience levels. You're certain to find skill-enhancing courses for everyone in your lab, in a delivery format to meet your needs.

What our satisfied customers are saying

94%

of students would recommend Agilent
University courses

Average Course Rating

Average Trainer Rating

* Data collected from customers throughout Europe for courses
hosted in 2022.

This training allowed me to better understand the principle of chromatography and the practical work was in adequacy with what I expected.

Cosmetics and Fragrances

The theoretical part specific to the triple quadrupole and its application on the apparatus were very appreciated.

Industrial environment

The perfect mastery of the trainer who gave us many "tips" to the users will facilitate the handling of this device.

Animal health

I loved the practical part. The trainer let us test what he had shown us and was there to guide us if we had any difficulties or questions.

Industrial Chemistry

I had a lot of questions and the trainer helped me to see things more clearly.

Pharmaceuticals

Having already worked with very similar devices, we were able to go into details such as the maintenance of the device and the adaptations of our current method to have an optimal use of the device.

Food safety

The content of the training was very good, whether it was the theory, the practice, the tuning part which was great as well as the practical part. The trainer knew his subject well, he was open and adapted to our questions.

Environment

* Feedback collected from customers based in different countries and regions.

Agilent University

Agilent can support you with classroom training as well as with digital solutions which avoid the need for travel, while still improving efficiency and productivity in the laboratory and reducing instrument downtime.

Virtual Instructor-led training (vILT)

Combines live interaction with the convenience of online.

Terms and Conditions, Cancellation and Rescheduling

All course schedules and course fees are subject to change without prior notice. A confirmation email will be sent two weeks before class commencement.

Cancellation or rescheduling must be made at least 10 working days prior to start of the course to avoid a 50% billing fee to attendee. A late cancellation notification or non-attendance will result in full billing. Agilent reserves the right to cancel any course 10 working days prior where minimum enrollment is not met. The purchase of non-refundable airline tickets is NOT recommended due to possible class cancellations.

Credits and Currencies

Now you can plan and budget your training requirement with Agilent University Training Credits that enable you to assign training funds without having to choose specific dates, locations, or topics.

Agilent University Training Credits give you an ideal way to manage your training budget and ensure essential learning.

They provide ultimate flexibility: can be used for Classroom Courses, Virtual Instructor-led Trainings, and Self-paced Courses including Cloud Labs.

The current conversion rate for 1 Training Credit (TC) is £ 0.74 or € 0.74.
