

Agilent University Course Catalog

2022 Edition – INDIA

Maximize the return on your Agilent instrument investments with Agilent training

Maximizing instrument utilization and throughput are high priorities for most labs. But insufficient training and inexperienced new hires are pulling in the opposite direction. Maybe you've seen the signs:

- Frequent errors and rework
- Repeated calls to support lines
- Under-utilized new features and capabilities
- Low throughput and productivity
- Frequent instrument downtime

Agilent University training is a quick and affordable remedy, helping you develop a confident, productive staff, and keeping your lab running at peak performance.

Agilent University has hundreds of courses, covering a broad range of topics and experience levels. You're certain to find skill-enhancing courses for everyone in your lab, in a delivery format to meet your needs.

What our satisfied customers are saying

93.3%

of students would recommend Agilent
University courses

Average Course Rating

Average Trainer Rating

* Data collected from French and German customers for courses hosted in 2020.

The customized training was extremely relevant to our needs. Our instructor is very knowledgeable and skillful. He has greatly improved our understanding of the system.

Research Scientist | Oil & Gas Industry

The training we attended improves our knowledge of GCMS, data mining and quantitative analysis tremendously.

Forensic Chemist | Government Agency

The courses I attended imparted me with practical knowledge and tips on how to run and optimize the system.

Assistant Lab Manager | Academic Institution

I found this course to be very relevant to my day-to-day work. The course was well designed, I enjoyed learning about the analyzer in sections; theory, then hands-on.

Refining Chemist

Before attending this course I had little understanding of the HPLC Systems. The instructor was able to simplify the system with her knowledge and skill. Her presentation skills and hands-on experience allowed me to fully grasp LC troubleshooting and maintenance. By gaining this knowledge I am able to efficiently and effectively perform my daily job function.

Biotechnology Company

The in-house training for Agilent's new OpenLAB software was very extensive. The coach explained everything very clearly using examples and illustrations. Our specific questions were answered comprehensively. The training serves as a good basis for the subsequent independent operation of the devices. The training materials provided covered all the most important topics.

Lab Manager | Quality control

* Feedback collected from customers based in different countries and regions.

Custom Remote Education

During the COVID-19 lockdown the need for education, to take the maximum from Agilent equipment, stayed unchanged.

In these cases Agilent is able to agree with the customer on a remote delivery of a Customized Training originally planned face to face.

For example, a 2 day on site training course was converted into 20 hours of remotely delivered training via 6 sessions. A tailored schedule, step by step progress check and Q&A sessions made the project successful.

Customer final feedback «*Thank you again on behalf of my colleagues, everyone agrees that it helped them a lot*».

Online learning flexes to meet new challenge

Remote work restrictions have caused many planned live learning events to be cancelled.

New Virtual Instructor-led learning options help fill the gap.

Virtual Instructor-led Training

When there is the need for training on newly installed instruments on an urgent basis, but there are travel restrictions, Agilent offers a complete vILTs schedule.

In one case for a recently installed 6545B LC-Qtof in Chennai (India), our customer joined a Virtual Instructor Lead Training on Agilent 6500 series LC-QToF.

The instructor has explained each and every corner regarding the QTOF without fail.

Customer final feedback «*We feel very happy to interact with you, and thankful to the entire Agilent team who supported the virtual training program at this corona circumstance*».

Course	Code	Credits	Days	Starting	Jan.	Feb.	Mar.	Apr.	May	Jun.	Jul.	Aug.	Sep.	Oct.	Nov.	Dec.	
GC	Introduction to Capillary GC	GC-0GEN-1000c	500	1	09:00 AM					<u>05</u>							GC
	Agilent 7890 GC Routine Maintenance	GC-7890-2206c	600	1	09:00 AM					<u>10</u>							
LC	Agilent Infinity Series HPLC Maintenance and Troubleshooting	HPLC-INF-2200c	1200	2	09:00 AM	<u>06-07</u>						<u>04-05</u>					LC
	UHPLC Method Development and Optimization	HPLC-INF-3070c	1200	2	09:00 AM	<u>10-11</u>						<u>11-12</u>					
GC/MS	Introduction to Mass Spectral Interpretation I	GCMS-0GEN-3063c	600	1	09:00 AM						<u>01</u>						GC/MS
	Agilent 5977 GC/MS Troubleshooting and Maintenance	GCMS-5977-2201c	600	1	09:00 AM						<u>06</u>

Terms and Conditions, Cancellation and Rescheduling

All course schedules and course fees are subject to change without prior notice. A confirmation letter will be sent two weeks before class commencement.

Cancellation or rescheduling must be made at least 10 working days prior to start of the course to avoid a 50% billing fee to attendee. A late cancellation notification or non-attendance will result in full billing. Agilent reserves the right to cancel any course 10 working days prior where minimum enrollment is not met. The purchase of non-refundable airline tickets is NOT recommended due to possible class cancellations.

Credits and Currencies

Now you can plan and budget your training requirement with Agilent University Training Credits that enable you to assign training funds without having to choose specific dates, locations, or topics. Agilent University Training Credits give you an ideal way to manage your training budget and ensure essential learning.

They provide ultimate flexibility: can be used for any Agilent University offering, On-Site training, or Consulting.

One TC value is 18.00 INR.
