

Agilent Technologies

Agilent Technologies Environmental, Health and Safety Policy

Agilent is committed to providing healthy and safe work environments and processes that enable our people to work injury and illness free while acting in an environmentally responsible manner. To achieve this we:

1. Ensure Agilent Technologies operations, products and services comply with environmental, health and safety regulations and additional company requirements.
2. Drive continual improvement in environmental sustainability through recycling, waste minimization, conservation of resources, prevention of pollution, product development, management of hazardous materials, and promotion of environmental responsibility among our employees.
3. Operate an environmental, health and safety management system aligned to the requirements of ISO14001 that includes: risk assessment, risk minimization, and performance reporting.
4. Ensure managers and employees are trained and accountable for preventing work related injuries, and provide appropriate wellness programs that contribute to the productivity, health, and well-being of employees.
5. Inform suppliers, and contractors of Agilent's environmental, health and safety principles and require them to adopt practices aligned with these expectations.

This policy is approved by Agilent's executive management and applies to Agilent operations worldwide.

Printed copies of this document are uncontrolled.
