

Lot 0006418082

Page 1 of 1

Catalog Number	400753
Product Name	Absolutely RNA Nanoprep Kit
Expiration Date	2020-11-30
Quantity	50 preps
Certified By	Dana Faver
Quality Controlled By	Matt Huffman
Shipping Conditions	Shipped at room temperature.

Storage Conditions

The components of the Absolutely RNA nanoprep kit should be stored as follows:

RNase-Free DNase I: After reconstitution, store at -20°C.

β-Mercaptoethanol: After opening, store at 4°C.

All other components: Once prepared, store at room temperature.

Description

The Absolutely RNA Nanoprep kit allows rapid purification of high quality total RNA from extremely small samples of cultured cells (1-10⁴ cells) or cells harvested by laser capture microdissection (LCM).

Test Conditions

RNA is isolated from the equivalent of 100 and 10,000 HeLa cells following the procedure in the product manual. RNA was further assessed by real-time quantitative RT-PCR to quantitate GAPDH, and confirm the absence of contaminating genomic DNA.

Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

For Research Use Only. Not for use in diagnostic procedures. This certificate is a declaration of analysis at the time of manufacture.
