

5185-5979 SHBR6294

Lot SHBR6294

Page 1 of 1

---

Catalog Number	5185-5979
Product Name	Stabilization and Drying Solution
Expiration Date	2025-02-28
Quantity	500 ml
Certified By	Todd Parsons
Quality Controlled By	Hayden Leatherwood
Shipping Conditions	Shipped at room temperature.
Storage Conditions	Store at room temperature.

### Description

The Agilent Stabilization and Drying Solution is a proprietary solution that acts as a chemical, long-term protectant containing an ozone scavenger dissolved at near-saturation levels in acetonitrile. It prevents both wet and dry modes of ozone-induced degradation of cyanine 3 and 5 dyes during microarray hybridization and processing steps. The solution substantially improves the performance of cyanine dye-labeled microarray slides. This reagent is an optional component of the Agilent Dual-Mode Gene Expression, Comparative Genomic Hybridization, and CHIP-on-Chip Solutions.

### Test Conditions

Solution formulation verified by HPLC. Solution is also checked for precipitation following multiple freeze/thaws and tested at 37–40°C for dissolution followed by microarray testing.

### Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

For Research Use Only. Not for use in diagnostic procedures. This certificate is a declaration of analysis at the time of manufacture.

### Made in USA

Agilent Technologies  
1834 State Highway 71 West  
Cedar Creek, TX 78612 USA
