

5188-5220 0006855378

Lot 0006855378

Page 1 of 1

Catalog Number	5188-5220
Product Name	Oligo aCGH/ChIP-on-Chip Hybridization Kit (minimum 24 slides)
Expiration Date	2027-05-31
Quantity	minimum 24 slides
Certified By	Dana Faver
Quality Controlled By	Zulema Bates
Shipping Conditions	Shipped at room temperature.

Storage Conditions

Store at room temperature upon receipt. Once the blocking agent has been resuspended, store at -20°C for up to 120 days.

Materials Provided

2 \times -Hi-RPM-Hybridization Buffer, minimum 24 slides (5 vials, 1.4 ml/vial)
aCGH Blocking Agent, minimum 24 slides (1 vial)

Description

The Agilent Oligo aCGH/ChIP-on-Chip Hybridization Kit contains hybridization solution and blocking agent that are validated and optimized for use in Agilent's Oligonucleotide Array-Based CGH (aCGH) and ChIP-on-Chip workflows. The Hybridization Kit delivers higher signal-to-noise ratio and signal intensity for optimized kinetics that promote high sensitivity and reproducibility.

Test Conditions

The components in this kit are to be used with the Agilent Oligo Microarrays. The 2 \times Hi-RPM Hybridization Buffer and the aCGH Blocking Agent are functionally tested on microarrays. Conductivity and pH are measured for the hybridization buffer. The concentration of the blocking agent is verified by spectrophotometry following reconstitution.

Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

For Research Use Only. Not for use in diagnostic procedures. This certificate is a declaration of analysis at the time of manufacture.

Made in USA
