Lot: 100874905

**Catalog Number** 5188-5282
**Product Name** One-Color RNA Spike-In Kit
**Expiration Date** 2019-08-30
**Quantity** 1 Kit
**Certified By** Tim Sanchez
**Quality Controlled By** Matt Huffman
**Shipping Conditions** Shipped on dry ice.
**Storage Conditions** Store at -80°C upon receipt.

**Materials Provided**
- One Color RNA Spike-Mix, 10 µl
- Dilution Buffer, 1.2 ml

**Description**
The Agilent One-Color RNA Spike-In Kit was developed to provide positive controls for monitoring the Agilent One Color Gene Expression microarray workflow from sample amplification and labeling to microarray processing. The Spike-Mix consists of a set of 10 positive control transcripts optimized to anneal to complementary probes on the microarray with minimal self-hybridization or cross-hybridization.

**Test Conditions**
RNA samples are spiked using the One-Color RNA Spike-In Kit and then labeled. The labeled cRNA is hybridized to Gene Expression microarrays to functionally verify the Spike-In reagents.
