

5188-5282 100874905

Agilent Technologies

Lot 100874905

Page 1 of 1

Catalog Number	5188-5282
Product Name	One-Color RNA Spike-In Kit
Expiration Date	2019-08-30
Quantity	1 Kit
Certified By	Tim Sanchez
Quality Controlled By	Matt Huffman
Shipping Conditions	Shipped on dry ice.
Storage Conditions	Store at -80°C upon receipt.

Materials Provided

One Color RNA Spike-Mix, 10 µl
Dilution Buffer, 1.2 ml

Description

The Agilent One-Color RNA Spike-In Kit was developed to provide positive controls for monitoring the Agilent One Color Gene Expression microarray workflow from sample amplification and labeling to microarray processing. The Spike-Mix consists of a set of 10 positive control transcripts optimized to anneal to complementary probes on the microarray with minimal self-hybridization or cross-hybridization.

Test Conditions

RNA samples are spiked using the One-Color RNA Spike-In Kit and then labeled. The labeled cRNA is hybridized to Gene Expression microarrays to functionally verify the Spike-In reagents.

Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

For Research Use Only. Not for use in diagnostic procedures. This certificate is a declaration of analysis at the time of manufacture.
