

5190-0451 0000075783

Lot 0000075783

Page 1 of 1

Catalog Number	5190-0451
Product Name	Genomic DNA 96-Well Purification Module
Expiration Date	2022-04-01
Quantity	1 Purification Module
Certified By	Derek Hall
Quality Controlled By	Matt Huffman
Shipping Conditions	Shipped at room temperature.
Storage Conditions	Store at room temperature.

Materials Provided

96-well Agilent-KREApure purification plate
96-well collection plate
96-well wash plate

Description

The Genomic DNA 96-Well Purification Module is compatible with the Agilent Oligo aCGH solution. Agilent-KREApure is used to purify labeled genomic DNA from the Genomic DNA High-Throughput ULS Labeling Kit.

Test Conditions

The components in this kit are tested for DNA recovery and ULS binding capacity. First, labeled DNA is put onto the column and eluted. The yield of the eluted DNA is determined. Then, free ULS-reagent is loaded onto the column and eluted.

Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

For Research Use Only. Not for use in diagnostic procedures. This certificate is a declaration of analysis at the time of manufacture.
