

600037 0006571316

Lot 0006571316

Page 1 of 1

---

Catalog Number	600037
Product Name	Universal Reverse Primer
Expiration Date	2023-02-28
Quantity	200 µl (200 PCR Reactions)
Certified By	Dana Faver
Quality Controlled By	Matt Huffman
Shipping Conditions	Shipped on dry ice.
Storage Conditions	Store at -20°C upon receipt.

### Concentration

3.125 µM

### Description

The Universal Reverse Primer is part of the High-Specificity miRNA QRT-PCR Detection Kit. The kit provides a complete system for the detection of microRNAs (miRNAs) from a sample of total RNA using real-time quantitative reverse transcription PCR (QRT-PCR). The universal reverse primer serves as the downstream primer in the QPCR reaction by annealing to a universal sequence tag that is added to the cDNA during the reverse transcription protocol.

### Test Conditions

The universal reverse primer is functionally tested in a QPCR assay with the reagents from the high-specificity miRNA QRT-PCR detection kit.

### Storage Buffer

5 mM Tris-HCl, pH 8.0  
0.1 mM EDTA

### Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

**For Research Use Only. Not for use in diagnostic procedures. This certificate is a declaration of analysis at the time of manufacture.**

### Made in USA

Agilent Technologies  
1834 State Highway 71 West  
Cedar Creek, TX 78612 USA
