| Catalog Number        | G9411A                                                                                         |
| Product Name          | ISH Pepsin Kit                                                                                 |
| Expiration Date       | 2027-06-30                                                                                     |
| Quantity              | 48 ml Pepsin (2 mg/ml), 48 ml Pepsin Diluent (10X)                                             |
| Certified By          | Todd Parsons                                                                                   |
| Quality Controlled By | Zulema Bates                                                                                   |
| Shipping Conditions   | Shipped on dry ice.                                                                            |
| Storage Conditions    | Store at -25°C to -15°C for duration of expiry date or at 2°C to 8°C for 60 days post receipt. |

### Description

For use in *in situ* hybridization protocols.

### Test Conditions

The Pepsin and 10× Pepsin Diluent are functionally tested in a fluorescence in situ hybridization (FISH) assay to verify that the reagents meet performance specifications. The pH and appearance of the reagents are also evaluated to ensure they meet specifications.

### Limited Product Warranty

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Agilent. Agilent shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product.

For Laboratory Use. This certificate is a declaration of analysis at the time of manufacture.
