**Subject: Agilent Statement on California Safe Drinking Water and Toxic Enforcement Act of 1986 (Commonly known as Proposition 65)**

Agilent manages a program to minimize potentially harmful materials in our products while ensuring high product quality and reliability. As a supplier of substances, mixtures, and articles, Agilent is aware of substance controls and restrictions required by California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as Proposition 65.

The Proposition 65 list contains a wide range of naturally occurring and synthetic chemicals that are listed for cancer or reproductive harm, or both. The list of chemicals is revised and republished at least once per year by the State of California Office of Environmental Health Hazard Assessment and made it available at [The Proposition 65 List - OEHHA](https://oehha.ca.gov/proposition-65). Agilent monitors the list on an ongoing basis for chemicals relevant to our product portfolio and strives to avoid restricted chemical substances in our products, for the benefit of our customers and the environment.

Agilent substances, mixtures and selected articles sold in the US are supported with a Safety Data Sheet (SDS) available at <https://www.agilent.com/>. Based on the information available to Agilent, California Proposition 65 compliance status will be included under Section 15. For further information, please contact [gse\\_inquiry@agilent.com](mailto:gse_inquiry@agilent.com).

Agilent is committed to ensuring that our operations, products, and services align with relevant environmental, health, and safety regulations. We deploy controls to meet additional internal standards and implement processes for continuous enhancement in environmental sustainability. This commitment involves recycling, reducing waste, conserving resources, preventing pollution, developing environmentally friendly products, managing hazardous materials, achieving net-zero greenhouse gas emissions, and fostering a culture of environmental responsibility.

For more information about Agilent's environmental programs and policies, please visit our website at [Environmental Health and Safety](https://www.agilent.com/en-us/our-business/our-environmental-positions).

Sincerely,

A handwritten signature in black ink, appearing to read "Grace Lee".
