Introducing Flexible Payment Plans from Agilent Financial Solutions

Two payment options

### Pay-for-use
- Lowest monthly payment option
- Strategic technology refresh

### Pay-to-own
- Instrument ownership
- Long-term investment

Why choose payment plans over a cash purchase?
- Preserve shrinking capital budgets for other critical business needs
- Get started on immediate projects, even with constrained budgets
- Bundling options to combine hardware, software, services, and consumables in a single monthly payment
- Maintain high performance through regular and ongoing instrument updates and improvements

Discuss financing with your Account Manager or visit our website: www.agilent.com/chem/financing
Trade-In, Sell or Recycle Your Old Instruments!

Agilent Instrument Trade-In and Buy Back Services
We refurbish and resell certified pre-owned Agilent instruments, including GC, LC, and MS systems, which enables you to reduce your inventory and accumulate cash for your next purchase.

Trade-In
Use our trade-in program to refresh your LC, GC, LC/MS, or GC/MS systems.

Sell
Receive cash for your Agilent LC, GC, LC/MS, or GC/MS systems. Use the cash to refresh your lab with the latest technology.

Recycle
Agilent provides green recycling programs to help you responsibly dispose of your older instruments.

Learn more:
Contact us at www.agilent.com/chem/contactus
Each trade-in system is subject to conditions as outlined in Return Conditions. Customers who purchase a new Agilent GC (Intuvo, 8890 or 8860) or Agilent GC/MS (5977) system, AND return an older model Agilent or non-Agilent GC or GC/MS, are eligible to receive a promotional discount off the new system.
Agilent Flexible Spend Plan

Allocate the funds you need to support your lab. Eliminate the frustration of losing your funds due to an expiring budget.

The Agilent Flexible Spend Plan makes it easy to apply funds to a flexible spending account. Use funds for Agilent columns, supplies, and services covering all major instrument brands.

- Streamline procurement processes
- Track account activity and balance online
- Add funds or new users at any time
- No need to submit POs for each purchase
- Use funds for what you need, when you need it

Agilent Quality to Fit Your Budget

Agilent Certified Pre-Owned Instruments

See why Agilent is the #1 choice for pre-owned analytical instruments.

**Validated performance**
Each instrument is rigorously refreshed to Agilent standards, including comprehensive electromechanical and operational performance validation.

**Expert installation**
Only Agilent service engineers have the skills, qualifications, and experience necessary to ensure fast, worry-free startup.

**Exceptional value**
With Agilent Certified Pre-Owned instruments, you get the technology and the rock-solid reliability you really want, at an attractive price.

**Same-as-new warranty**
Agilent Certified Pre-Owned instruments receive a full one-year warranty, for peace of mind equal to that of a new Agilent instrument. Owners of a Certified Pre-Owned Agilent instrument also have the option to purchase an extended support contract.
