**Additional Information**

- Microplate facility is a DNase/RNase free production environment with ISO 9001:2015 operations.
- All plates are designed and manufactured in accordance with the ANSI/SBS X-2004 specifications.
- All reservoirs are designed to comply with ANSI/SLAS 1-2004: Microplates.
- Footprint dimensions are compatible with most automation systems.

*Irradiated treatment expires after one year; the plate material is stable for four years. Products should be stored in the original sealed package under normal laboratory environment conditions.*
