</tr>
</tbody>
</table>

1.3 Details of the supplier of the safety data sheet

Agilent Technologies Manufacturing GmbH & Co. KG
Hewlett-Packard-Str. 8
76337 Waldbronn
Germany
0800 603 1000

E-mail address of person responsible for this SDS: pdl-msds_author@agilent.com

1.4 Emergency telephone number

Emergency telephone number (with hours of operation): CHEMTREC®: +(44)-870-8200418

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

<table>
<thead>
<tr>
<th>Product name</th>
<th>Classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>pSRE-Luc</td>
<td>Mixture</td>
</tr>
<tr>
<td>pFC-MEKK Plasmid (Positive Control)</td>
<td>Mixture</td>
</tr>
</tbody>
</table>

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
Not classified.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Signal word: No signal word.

Hazard statements:

<table>
<thead>
<tr>
<th>Material Name</th>
<th>Hazard statements</th>
</tr>
</thead>
<tbody>
<tr>
<td>pSRE-Luc</td>
<td>No known significant effects or critical hazards.</td>
</tr>
<tr>
<td>pFC-MEKK Plasmid (Positive Control)</td>
<td>No known significant effects or critical hazards.</td>
</tr>
</tbody>
</table>

Precautionary statements
SECTION 2: Hazards identification

Prevention:
- pSRE-Luc: Not applicable.
- pFC-MEK Plasmid (Positive Control): Not applicable.

Response:
- pSRE-Luc: Not applicable.
- pFC-MEK Plasmid (Positive Control): Not applicable.

Storage:
- pSRE-Luc: Not applicable.
- pFC-MEK Plasmid (Positive Control): Not applicable.

Disposal:
- pSRE-Luc: Not applicable.
- pFC-MEK Plasmid (Positive Control): Not applicable.

Supplemental label elements:
- pSRE-Luc: Not applicable.
- pFC-MEK Plasmid (Positive Control): Not applicable.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles:
- pSRE-Luc: Not applicable.
- pFC-MEK Plasmid (Positive Control): Not applicable.

Special packaging requirements
- Tactile warning of danger:
  - pSRE-Luc: Not applicable.
  - pFC-MEK Plasmid (Positive Control): Not applicable.

2.3 Other hazards
- Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII:
  - pSRE-Luc: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
  - pFC-MEK Plasmid (Positive Control): This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Other hazards which do not result in classification:
- pSRE-Luc: None known.
- pFC-MEK Plasmid (Positive Control): None known.

SECTION 3: Composition/information on ingredients

3.1 Substances:
- pSRE-Luc: Mixture
- pFC-MEK Plasmid (Positive Control): Mixture

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

Eye contact:
- pSRE-Luc: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- pFC-MEK Plasmid (Positive Control): Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
CONFORMS TO REGULATION (EC) NO. 1907/2006 (REACH), ANNEX II, AS AMENDED BY COMMISSION REGULATION (EU) 2015/830 - UNITED KINGDOM (UK)

PathDetect SRE cis Reporting System, Part Number 219079

SECTION 4: First aid measures

| Ingestion | pSRE-Luc | Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Skin contact | pSRE-Luc | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Skin contact | pSRE-Luc | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | pSRE-Luc | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Protection of first-aiders | pSRE-Luc | No action shall be taken involving any personal risk or without suitable training. |
| Protection of first-aiders | pSRE-Luc | No action shall be taken involving any personal risk or without suitable training. |

4.2 Most important symptoms and effects, both acute and delayed

**Potential acute health effects**

| Eye contact | pSRE-Luc | No known significant effects or critical hazards. |
| Skin contact | pSRE-Luc | No known significant effects or critical hazards. |
| Ingestion | pSRE-Luc | No known significant effects or critical hazards. |
| Inhalation | pSRE-Luc | No known significant effects or critical hazards. |
| Skin contact | pSRE-Luc | No known significant effects or critical hazards. |
| Ingestion | pSRE-Luc | No known significant effects or critical hazards. |

**Over-exposure signs/symptoms**

| Eye contact | pSRE-Luc | No specific data. |
| Skin contact | pSRE-Luc | No specific data. |
| Ingestion | pSRE-Luc | No specific data. |

4.3 Indication of any immediate medical attention and special treatment needed
**SECTION 4: First aid measures**

<table>
<thead>
<tr>
<th>Notes to physician</th>
<th>Specific treatments</th>

<tr>
<td>pFC-MEK Plasmid (Positive Control)</td>
<td>No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.</td>
</tr>
</tbody>
</table>
SECTION 6: Accidental release measures

For emergency responders

6.2 Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

SECTION 7: Handling and storage

**Storage**

- **pSRE-Luc**
  - Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

- **pFC-MEKK Plasmid (Positive Control)**
  - Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

**Recommendations**

- **pSRE-Luc**
  - Industrial applications, Professional applications.

- **pFC-MEKK Plasmid (Positive Control)**
  - Industrial applications, Professional applications.

**Industrial sector specific solutions**

- **pSRE-Luc**
  - Not applicable.

- **pFC-MEKK Plasmid (Positive Control)**
  - Not applicable.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

**Occupational exposure limits**

No exposure limit value known.

**Recommended monitoring procedures**

- If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

**DNELs/DMELs**

No DNELs/DMELs available.

**PNECs**

No PNECs available.

8.2 Exposure controls

**Appropriate engineering controls**

- Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Individual protection measures**
SECTION 8: Exposure controls/personal protection

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Hand protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. The respirator should be chosen according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

### SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

**Acute toxicity**
- Not available.

**Acute toxicity estimates**
- N/A

**Irritation/Corrosion**

**Conclusion/Summary**
- Not available.

**Sensitiser**
- Not available.

**Mutagenicity**
- Not available.

**Carcinogenicity**
- Not available.

**Reproductive toxicity**
- Not available.

**Teratogenicity**
- Not available.

**Specific target organ toxicity (single exposure)**
- Not available.

**Specific target organ toxicity (repeated exposure)**
- Not available.

**Aspiration hazard**
- Not available.

**Information on likely routes of exposure**

**Potential acute health effects**

**Inhalation**
- pSRE-Luc
- pFC-MEKK Plasmid (Positive Control)
- No known significant effects or critical hazards.
SECTION 11: Toxicological information

Ingestion:
- pSRE-Luc: No known significant effects or critical hazards.
- pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

Skin contact:
- pSRE-Luc: No known significant effects or critical hazards.
- pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

Eye contact:
- pSRE-Luc: No known significant effects or critical hazards.
- pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics:

Inhalation:
- pSRE-Luc: No specific data.
- pFC-MEK Plasmid (Positive Control): No specific data.

Ingestion:
- pSRE-Luc: No specific data.
- pFC-MEK Plasmid (Positive Control): No specific data.

Skin contact:
- pSRE-Luc: No specific data.
- pFC-MEK Plasmid (Positive Control): No specific data.

Eye contact:
- pSRE-Luc: No specific data.
- pFC-MEK Plasmid (Positive Control): No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure:

Short term exposure:
- Potential immediate effects: Not available.
- Potential delayed effects: Not available.

Long term exposure:
- Potential immediate effects: Not available.
- Potential delayed effects: Not available.

Potential chronic health effects:
- General:
  - pSRE-Luc: No known significant effects or critical hazards.
  - pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

- Carcinogenicity:
  - pSRE-Luc: No known significant effects or critical hazards.
  - pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

- Mutagenicity:
  - pSRE-Luc: No known significant effects or critical hazards.
  - pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

- Teratogenicity:
  - pSRE-Luc: No known significant effects or critical hazards.
  - pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

- Developmental effects:
  - pSRE-Luc: No known significant effects or critical hazards.
  - pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.

- Fertility effects:
  - pSRE-Luc: No known significant effects or critical hazards.
  - pFC-MEK Plasmid (Positive Control): No known significant effects or critical hazards.
SECTION 12: Ecological information

12.1 Toxicity

Conclusion/Summary : Not available.

12.2 Persistence and degradability

Not available.

12.3 Bioaccumulative potential

Not available.

12.4 Mobility in soil

- Soil/water partition coefficient \( K_{OC} \) : Not available.
- Mobility : Not available.

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

- Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

- Hazardous waste : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

Packaging

- Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

- Special precautions : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
