Section 1. Identification

**Product identifier**: PathDetect p53 cis Reporting System, Part Number 219083

**Part no. (chemical kit)**: 219083

**Part no.**:
- p53-Luc Plasmid 219085-51
- pFC-p53 Positive Control Plasmid 219083-52

**Supplier/Manufacturer**:
Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

**Emergency telephone number (with hours of operation)**:
CHEMTREC®: +(61)-290372994

Relevant identified uses of the substance or mixture and uses advised against

**Material uses**:
- p53-Luc Plasmid 0.05 ml
- pFC-p53 Positive Control Plasmid 0.2 ml (5 µg 25 ng/µl)

Section 2. Hazard(s) identification

**Classification of the substance or mixture**
Not classified.

**GHS label elements**

**Signal word**:
- p53-Luc Plasmid
- pFC-p53 Positive Control Plasmid

**Hazard statements**:
- p53-Luc Plasmid: No known significant effects or critical hazards.
- pFC-p53 Positive Control Plasmid: No known significant effects or critical hazards.

**Precautionary statements**

**Prevention**:
- p53-Luc Plasmid
- pFC-p53 Positive Control Plasmid

**Response**:
- p53-Luc Plasmid
- pFC-p53 Positive Control Plasmid

**Storage**:
- p53-Luc Plasmid
- pFC-p53 Positive Control Plasmid

**Disposal**:
- p53-Luc Plasmid
- pFC-p53 Positive Control Plasmid

**Additional warning phrases**:
- p53-Luc Plasmid
- pFC-p53 Positive Control Plasmid

Date of issue/Date of revision: 23/12/2019
Date of previous issue: 31/12/2017
Version: 3
Section 2. Hazard(s) identification

Other hazards which do not result in classification:
- p53-Luc Plasmid: None known.
- pFC-p53 Positive Control Plasmid: None known.

Section 3. Composition and ingredient information

Substance/mixture:
- p53-Luc Plasmid: Mixture
- pFC-p53 Positive Control Plasmid: Mixture

CAS number/other identifiers:
There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures:

**Eye contact**:
- p53-Luc Plasmid: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- pFC-p53 Positive Control Plasmid: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Inhalation**:
- p53-Luc Plasmid: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- pFC-p53 Positive Control Plasmid: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin contact**:
- p53-Luc Plasmid: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- pFC-p53 Positive Control Plasmid: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Ingestion**:
- p53-Luc Plasmid: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- pFC-p53 Positive Control Plasmid: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**

**Potential acute health effects**:
- p53-Luc Plasmid: No known significant effects or critical hazards.
- pFC-p53 Positive Control Plasmid: No known significant effects or critical hazards.
Section 4. First aid measures

Inhalation:
- p53-Luc Plasmid: No known significant effects or critical hazards.
- pFC-p53 Positive Control Plasmid: No known significant effects or critical hazards.

Skin contact:
- p53-Luc Plasmid: No known significant effects or critical hazards.
- pFC-p53 Positive Control Plasmid: No known significant effects or critical hazards.

Ingestion:
- p53-Luc Plasmid: No known significant effects or critical hazards.
- pFC-p53 Positive Control Plasmid: No known significant effects or critical hazards.

Over-exposure signs/symptoms:

Eye contact:
- p53-Luc Plasmid: No specific data.
- pFC-p53 Positive Control Plasmid: No specific data.

Inhalation:
- p53-Luc Plasmid: No specific data.
- pFC-p53 Positive Control Plasmid: No specific data.

Skin contact:
- p53-Luc Plasmid: No specific data.
- pFC-p53 Positive Control Plasmid: No specific data.

Ingestion:
- p53-Luc Plasmid: No specific data.
- pFC-p53 Positive Control Plasmid: No specific data.

Indication of immediate medical attention and special treatment needed, if necessary:

Notes to physician:
- p53-Luc Plasmid: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- pFC-p53 Positive Control Plasmid: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments:

Protection of first-aiders:
- p53-Luc Plasmid: No action shall be taken involving any personal risk or without suitable training.
- pFC-p53 Positive Control Plasmid: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Firefighting measures

Extinguishing media:

Suitable extinguishing media:
- p53-Luc Plasmid: Use an extinguishing agent suitable for the surrounding fire.
- pFC-p53 Positive Control Plasmid: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media:
- p53-Luc Plasmid: None known.
- pFC-p53 Positive Control Plasmid: None known.

Specific hazards arising from the chemical:
- p53-Luc Plasmid: In a fire or if heated, a pressure increase will occur and the container may burst.
- pFC-p53 Positive Control Plasmid: In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products:
- p53-Luc Plasmid: No specific data.
- pFC-p53 Positive Control Plasmid: No specific data.
Section 5. Firefighting measures

**Special protective actions for fire-fighters**

<table>

Section 8. Exposure controls and personal protection

Control parameters

Occupational exposure limits

None.

Appropriate engineering controls

| Good general ventilation should be sufficient to control worker exposure to airborne contaminants. |

Date of issue/Date of revision : 23/12/2019
Date of previous issue : 31/12/2017
Version : 3
Section 8. Exposure controls and personal protection

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 11. Toxicological information

Inhalation : p53-Luc Plasmid
            pFC-p53 Positive Control Plasmid
            No specific data.

Skin contact : p53-Luc Plasmid
               pFC-p53 Positive Control Plasmid
               No specific data.

Ingestion : p53-Luc Plasmid
            pFC-p53 Positive Control Plasmid
            No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

General : p53-Luc Plasmid
          pFC-p53 Positive Control Plasmid
          No known significant effects or critical hazards.

Carcinogenicity : p53-Luc Plasmid
                  pFC-p53 Positive Control Plasmid
                  No known significant effects or critical hazards.

Mutagenicity : p53-Luc Plasmid
               pFC-p53 Positive Control Plasmid
               No known significant effects or critical hazards.

Teratogenicity : p53-Luc Plasmid
                pFC-p53 Positive Control Plasmid
                No known significant effects or critical hazards.

Developmental effects : p53-Luc Plasmid
                        pFC-p53 Positive Control Plasmid
                        No known significant effects or critical hazards.

Fertility effects : p53-Luc Plasmid
                   pFC-p53 Positive Control Plasmid
                   No known significant effects or critical hazards.

N/A

Section 12. Ecological information

Toxicity
Not available.

Persistence and degradability
Not available.

Bioaccumulative potential

Date of issue/Date of revision : 23/12/2019  Date of previous issue : 31/12/2017  Version : 3
Section 12. Ecological information

Not available.

**Mobility in soil**

Soil/water partition coefficient (Koc) : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

**ADG / IMDG / IATA** : Not regulated as Dangerous Goods according to the ADG Code.

**Special precautions for user** : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of Marpol and the IBC Code** : Not available.

Section 15. Regulatory information

**Standard Uniform Schedule of Medicine and Poisons**

Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances**

No listed substance

**International regulations**

**Chemical Weapon Convention List Schedules I, II & III Chemicals**

Not listed.

**Montreal Protocol (Annexes A, B, C, E)**

Not listed.

**Stockholm Convention on Persistent Organic Pollutants**

Not listed.

**Rotterdam Convention on Prior Informed Consent (PIC)**

Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

**Inventory list**

**Australia** : All components are listed or exempted.
