SAFETY DATA SHEET

PathDetect ISRE cis Reporting System, Part Number 219092

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product name: PathDetect ISRE cis Reporting System, Part Number 219092
Part no. (chemical kit): 219092
Part no.:
- pISRE-Luc Plasmid 219089-51
- pCIS-CK Negative Control Plasmid 219090-51

1.2 Relevant identified uses of the substance or mixture and uses advised against

Material uses: Analytical reagent.
- pISRE-Luc Plasmid 0.05 ml (50 µg 1 µg/µl)
- pCIS-CK Negative Control Plasmid 0.05 ml (50 µg 1 µg/µl)

1.3 Details of the supplier of the safety data sheet

Agilent Technologies Manufacturing GmbH & Co. KG
Hewlett-Packard-Str. 8
76337 Waldbronn
Germany
0800 603 1000

E-mail address of person responsible for this SDS: pdl-msds_author@agilent.com

1.4 Emergency telephone number

Emergency telephone number (with hours of operation): CHEMTREC®: +(44)-870-8200418

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition:
- pISRE-Luc Plasmid Mixture
- pCIS-CK Negative Control Plasmid Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
Not classified.

See Section 16 for the full text of the H statements declared above.
See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Signal word:
- pISRE-Luc Plasmid No signal word.
- pCIS-CK Negative Control Plasmid No signal word.

Hazard statements:
- pISRE-Luc Plasmid No known significant effects or critical hazards.
- pCIS-CK Negative Control Plasmid No known significant effects or critical hazards.

Precautionary statements

PathDetect ISRE cis Reporting System, Part Number 219092

SECTION 2: Hazards identification

Prevention:
- pISRE-Luc Plasmid: Not applicable.
- pCIS-CK Negative Control Plasmid: Not applicable.

Response:
- pISRE-Luc Plasmid: Not applicable.
- pCIS-CK Negative Control Plasmid: Not applicable.

Storage:
- pISRE-Luc Plasmid: Not applicable.
- pCIS-CK Negative Control Plasmid: Not applicable.

Disposal:
- pISRE-Luc Plasmid: Not applicable.
- pCIS-CK Negative Control Plasmid: Not applicable.

Supplemental label elements:
- pISRE-Luc Plasmid: Not applicable.
- pCIS-CK Negative Control Plasmid: Not applicable.

Annex XVII - Restrictions on the manufacture, placing on the market, and use of certain dangerous substances, mixtures and articles:
- pISRE-Luc Plasmid: Not applicable.
- pCIS-CK Negative Control Plasmid: Not applicable.

Special packaging requirements:
- Tactile warning of danger:
  - pISRE-Luc Plasmid: Not applicable.
  - pCIS-CK Negative Control Plasmid: Not applicable.

2.3 Other hazards

Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII:
- pISRE-Luc Plasmid: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
- pCIS-CK Negative Control Plasmid: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Other hazards which do not result in classification:
- pISRE-Luc Plasmid: None known.
- pCIS-CK Negative Control Plasmid: None known.

SECTION 3: Composition/information on ingredients

3.1 Substances:
- pISRE-Luc Plasmid: Mixture
- pCIS-CK Negative Control Plasmid: Mixture

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

Eye contact:
- pISRE-Luc Plasmid: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- pCIS-CK Negative Control Plasmid: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
SECTION 4: First aid measures

Inhalation: pISRE-Luc Plasmid
Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

pCIS-CK Negative Control Plasmid
Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Skin contact: pISRE-Luc Plasmid
Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

pCIS-CK Negative Control Plasmid
Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

Ingestion: pISRE-Luc Plasmid
Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

pCIS-CK Negative Control Plasmid
Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Protection of first-aiders: pISRE-Luc Plasmid
No action shall be taken involving any personal risk or without suitable training.

pCIS-CK Negative Control Plasmid
No action shall be taken involving any personal risk or without suitable training.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effects

Eye contact: pISRE-Luc Plasmid
No known significant effects or critical hazards.

pCIS-CK Negative Control Plasmid
No known significant effects or critical hazards.

Inhalation: pISRE-Luc Plasmid
No known significant effects or critical hazards.

pCIS-CK Negative Control Plasmid
No known significant effects or critical hazards.

Skin contact: pISRE-Luc Plasmid
No known significant effects or critical hazards.

pCIS-CK Negative Control Plasmid
No known significant effects or critical hazards.

Ingestion: pISRE-Luc Plasmid
No known significant effects or critical hazards.

pCIS-CK Negative Control Plasmid
No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact: pISRE-Luc Plasmid
No specific data.

pCIS-CK Negative Control Plasmid
No specific data.

Inhalation: pISRE-Luc Plasmid
No specific data.

pCIS-CK Negative Control Plasmid
No specific data.

Skin contact: pISRE-Luc Plasmid
No specific data.

pCIS-CK Negative Control Plasmid
No specific data.

Ingestion: pISRE-Luc Plasmid
No specific data.

pCIS-CK Negative Control Plasmid
No specific data.

4.3 Indication of any immediate medical attention and special treatment needed

Date of issue/Date of revision: 23/12/2019
Date of previous issue: 31/12/2017
Version: 2
SECTION 4: First aid measures

Notes to physician:
- **pISRE-Luc Plasmid**: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- **pCIS-CK Negative Control Plasmid**: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments:
- **pISRE-Luc Plasmid**: No specific treatment.
- **pCIS-CK Negative Control Plasmid**: No specific treatment.

SECTION 5: Firefighting measures

5.1 Extinguishing media

- **Suitable extinguishing media**: Use an extinguishing agent suitable for the surrounding fire.
  - **pISRE-Luc Plasmid**: Use an extinguishing agent suitable for the surrounding fire.
  - **pCIS-CK Negative Control Plasmid**: Use an extinguishing agent suitable for the surrounding fire.

- **Unsuitable extinguishing media**: None known.
  - **pISRE-Luc Plasmid**: None known.
  - **pCIS-CK Negative Control Plasmid**: None known.

5.2 Special hazards arising from the substance or mixture

- **Hazardous combustion products**: No specific data.
  - **pISRE-Luc Plasmid**: No specific data.
  - **pCIS-CK Negative Control Plasmid**: No specific data.

5.3 Advice for firefighters

- **Special precautions for fire-fighters**: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
  - **pISRE-Luc Plasmid**: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
  - **pCIS-CK Negative Control Plasmid**: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

- **Special protective equipment for fire-fighters**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
  - **pISRE-Luc Plasmid**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
  - **pCIS-CK Negative Control Plasmid**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:
- **pISRE-Luc Plasmid**: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- **pCIS-CK Negative Control Plasmid**: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
### SECTION 6: Accidental release measures

**For emergency responders**

</tbody>
</table>

#### 7.2 Conditions for safe storage, including any incompatibilities
SECTION 7: Handling and storage

Storage

pISRE-Luc Plasmid
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

pCIS-CK Negative Control Plasmid
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations:

pISRE-Luc Plasmid
Industrial applications, Professional applications.

pCIS-CK Negative Control Plasmid
Industrial applications, Professional applications.

Industrial sector specific solutions:

pISRE-Luc Plasmid
Not applicable.

pCIS-CK Negative Control Plasmid
Not applicable.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits
No exposure limit value known.

Recommended monitoring procedures:
If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

DNELs/DMELs
No DNELs/DMELs available.

PNECs
No PNECs available

8.2 Exposure controls

Appropriate engineering controls:
Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

SECTION 8: Exposure controls/personal protection

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

  - No known significant effects or critical hazards.

**Mutagenicity**:
- **pISRE-Luc Plasmid**
  - No known significant effects or critical hazards.
- **pCIS-CK Negative Control Plasmid**
  - No known significant effects or critical hazards.

**Teratogenicity**:
- **pISRE-Luc Plasmid**
  - No known significant effects or critical hazards.
- **pCIS-CK Negative Control Plasmid**
  - No known significant effects or critical hazards.

**Developmental effects**:
- **pISRE-Luc Plasmid**
  - No known significant effects or critical hazards.
- **pCIS-CK Negative Control Plasmid**
  - No known significant effects or critical hazards.

**Fertility effects**:
- **pISRE-Luc Plasmid**
  - No known significant effects or critical hazards.
- **pCIS-CK Negative Control Plasmid**
  - No known significant effects or critical hazards.
SECTION 12: Ecological information

12.1 Toxicity
Conclusion/Summary : Not available.

12.2 Persistence and degradability
Not available.

12.3 Bioaccumulative potential
Not available.

12.4 Mobility in soil
Soil/water partition coefficient (KOC) : Not available.
Mobility : Not available.

12.5 Results of PBT and vPvB assessment
This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Product
Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

Hazardous waste : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

Packaging
Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Special precautions : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

SECTION 14: Transport information

14.5 Environmental hazards

Additional information

14.6 Special precautions for user

: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

: Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

: pISRE-Luc Plasmid

: pCIS-CK Negative Control Plasmid

: Not applicable.

Other EU regulations

Ozone depleting substances (1005/2009/EU)

Not listed.

Prior Informed Consent (PIC) (649/2012/EU)

Not listed.

Seveso Directive

This product is not controlled under the Seveso Directive.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list

Australia : All components are listed or exempted.

Canada : All components are listed or exempted.
