SAFETY DATA SHEET

PathDetect C/EBP cis Reporting System, Part Number 240111

Section 1. Identification

1.1 Product identifier

Product name : PathDetect C/EBP cis Reporting System, Part Number 240111

Part no. (chemical kit) : 240111

Part no. : pCIS-CK Negative Control Plasmid 219090-51

pC/EBP-Luc Plasmid 240112-51

Validation date : 5/16/2022

1.2 Relevant identified uses of the substance or mixture and uses advised against

Material uses : Analytical reagent.

pCIS-CK Negative Control Plasmid 0.05 ml (50 μ g 1 μ g/ μ l) pC/EBP-Luc Plasmid 0.05 ml (50 μ g 1 μ g/ μ l)

1.3 Details of the supplier of the safety data sheet

Supplier/Manufacturer: Agilent Technologies, Inc.

5301 Stevens Creek Blvd Santa Clara, CA 95051, USA

800-227-9770

1.4 Emergency telephone number

In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture

OSHA/HCS status : pCIS-CK Negative Control While this material is not considered hazardous by the

Plasmid

OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees

and other users of this product.

pC/EBP-Luc Plasmid While this material is not considered hazardous by the

OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees

and other users of this product.

Classification of the substance or mixture

Not classified.

Response

2.2 GHS label elements

Signal word : pCIS-CK Negative Control Plasmid No signal word.

pC/EBP-Luc Plasmid No signal word.

Hazard statements: pCIS-CK Negative Control Plasmid No known significant effects or critical hazards.

pc/EBP-Luc Plasmic

pC/EBP-Luc Plasmid No known significant effects or critical hazards.

Precautionary statements

Prevention : pCIS-CK Negative Control Plasmid Not applicable.

pC/EBP-Luc Plasmid Not applicable.

: pCIS-CK Negative Control Plasmid Not applicable.
pC/EBP-Luc Plasmid Not applicable.

Date of issue: 05/16/2022 1/13

PathDetect C/EBP cis Reporting System, Part Number 240111

Section 2. Hazards identification

: pCIS-CK Negative Control Plasmid Not applicable. **Storage** pC/EBP-Luc Plasmid Not applicable.

Disposal : pCIS-CK Negative Control Plasmid Not applicable.

pC/EBP-Luc Plasmid Not applicable. Supplemental label : pCIS-CK Negative Control Plasmid None known. pC/EBP-Luc Plasmid

elements 2.3 Other hazards

Hazards not otherwise : pCIS-CK Negative Control Plasmid None known.

Section 3. Composition/information on ingredients

pC/EBP-Luc Plasmid

Substance/mixture : pCIS-CK Negative Control Plasmid Mixture pC/EBP-Luc Plasmid Mixture

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

classified

4.1 Description of necessary first aid measures

: pCIS-CK Negative Control Plasmid Immediately flush eyes with plenty of water, Eye contact

> occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get

medical attention if irritation occurs.

pC/EBP-Luc Plasmid Immediately flush eyes with plenty of water,

None known.

None known.

occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get

medical attention if irritation occurs.

: pCIS-CK Negative Control Plasmid Remove victim to fresh air and keep at rest in a Inhalation

position comfortable for breathing. Get medical

attention if symptoms occur.

pC/EBP-Luc Plasmid Remove victim to fresh air and keep at rest in a

position comfortable for breathing. Get medical

attention if symptoms occur.

: pCIS-CK Negative Control Plasmid Flush contaminated skin with plenty of water. Skin contact

Remove contaminated clothing and shoes. Get

medical attention if symptoms occur.

pC/EBP-Luc Plasmid Flush contaminated skin with plenty of water.

Remove contaminated clothing and shoes. Get

medical attention if symptoms occur.

Ingestion : pCIS-CK Negative Control Plasmid Wash out mouth with water. If material has been

> swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms

occur.

pC/EBP-Luc Plasmid Wash out mouth with water. If material has been

> swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms

occur.

4.2 Most important symptoms/effects, acute and delayed Potential acute health effects

Date of issue: 05/16/2022 2/13

Section 4. First aid measures

Eye contact : pCIS-CK Negative Control Plasmid No known significant effects or critical hazards.

> pC/EBP-Luc Plasmid No known significant effects or critical hazards.

Inhalation : pCIS-CK Negative Control Plasmid No known significant effects or critical hazards.

> pC/EBP-Luc Plasmid No known significant effects or critical hazards.

: pCIS-CK Negative Control Plasmid No known significant effects or critical hazards. Skin contact

pC/EBP-Luc Plasmid No known significant effects or critical hazards.

: pCIS-CK Negative Control Plasmid No known significant effects or critical hazards. Ingestion

pC/EBP-Luc Plasmid No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact : pCIS-CK Negative Control Plasmid No specific data.

> pC/EBP-Luc Plasmid No specific data.

Inhalation : pCIS-CK Negative Control Plasmid No specific data.

pC/EBP-Luc Plasmid No specific data.

Skin contact pCIS-CK Negative Control Plasmid No specific data. pC/EBP-Luc Plasmid No specific data.

: pCIS-CK Negative Control Plasmid No specific data. Ingestion

pC/EBP-Luc Plasmid No specific data.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : pCIS-CK Negative Control Plasmid Treat symptomatically. Contact poison treatment

specialist immediately if large quantities have been

ingested or inhaled.

pC/EBP-Luc Plasmid Treat symptomatically. Contact poison treatment

specialist immediately if large quantities have been

ingested or inhaled.

: pCIS-CK Negative Control Plasmid No specific treatment. Specific treatments

pC/EBP-Luc Plasmid No specific treatment.

Protection of first-aiders : pCIS-CK Negative Control Plasmid No action shall be taken involving any personal risk

or without suitable training.

pC/EBP-Luc Plasmid No action shall be taken involving any personal risk

or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing

media

: pCIS-CK Negative Control Plasmid Use an extinguishing agent suitable for the

surrounding fire.

pC/EBP-Luc Plasmid Use an extinguishing agent suitable for the

surrounding fire.

Unsuitable extinguishing

media

: pCIS-CK Negative Control Plasmid None known.

pC/EBP-Luc Plasmid

None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical

: pCIS-CK Negative Control Plasmid In a fire or if heated, a pressure increase will occur

and the container may burst.

In a fire or if heated, a pressure increase will occur pC/EBP-Luc Plasmid

and the container may burst.

Hazardous thermal decomposition products : pCIS-CK Negative Control Plasmid No specific data.

pC/EBP-Luc Plasmid No specific data.

5.3 Advice for firefighters

Date of issue: 05/16/2022 3/13

Section 5. Fire-fighting measures

Special protective actions for fire-fighters

: pCIS-CK Negative Control Plasmid Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No

action shall be taken involving any personal risk or

without suitable training.

pC/EBP-Luc Plasmid

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or

without suitable training.

Special protective equipment for fire-fighters : pCIS-CK Negative Control Plasmid Fire-fighters should wear appropriate protective

equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive

pressure mode.

pC/EBP-Luc Plasmid

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive

No action shall be taken involving any personal risk or without suitable training. Evacuate

surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not

risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. If specialized clothing is required to deal with the

spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Inform the relevant authorities if the product has

caused environmental pollution (sewers,

pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

6.2 Environmental

precautions

: pCIS-CK Negative Control Plasmid

touch or walk through spilled material. Put on appropriate personal protective equipment. pC/EBP-Luc Plasmid No action shall be taken involving any personal

For emergency responders: pCIS-CK Negative Control Plasmid

waterways, soil or air).

pC/EBP-Luc Plasmid Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Inform the relevant authorities if the product has caused environmental pollution (sewers,

waterways, soil or air).

6.3 Methods and materials for containment and cleaning up

Date of issue: 05/16/2022

Section 6. Accidental release measures

: pCIS-CK Negative Control Plasmid Stop leak if without risk. Move containers from spill Methods for cleaning up

area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

pC/EBP-Luc Plasmid

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures

: pCIS-CK Negative Control Plasmid Put on appropriate personal protective equipment

(see Section 8).

pC/EBP-Luc Plasmid

pC/EBP-Luc Plasmid

Put on appropriate personal protective equipment

(see Section 8).

Advice on general occupational hygiene : pCIS-CK Negative Control Plasmid Eating, drinking and smoking should be prohibited

in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited

in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

: pCIS-CK Negative Control Plasmid Store in accordance with local regulations. Store in original container protected from direct sunlight in a

> dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
None.	

8.2 Exposure controls

Appropriate engineering controls

Environmental exposure

- : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

controls

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.

Skin protection Hand protection

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection

: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a

05/16/2022 Date of issue: 10/13

Section 13. Disposal considerations

safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information
