SAFETY DATA SHEET
PicoMaxx High Fidelity PCR System, Part Number 600424

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product name: PicoMaxx High Fidelity PCR System, Part Number 600424
Part no. (chemical kit): 600424
Part no.: PicoMaxx High Fidelity PCR System 600422-51
10X PicoMaxx Reaction Buffer 600420-52

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Analytical reagent.

Uses advised against: None known.

1.3 Details of the supplier of the safety data sheet

Agilent Technologies LDA UK Ltd.
5500 Lakeside Cheadle Royal Business Park,
Cheadle, Cheshire, SK8 3GR
United Kingdom
Tel: +44 (0) 345 712 5292
0800 603 1000
e-mail address of person responsible for this SDS: pdl-msds_author@agilent.com

1.4 Emergency telephone number

Emergency telephone number (with hours of operation): CHEMTREC®: +(44)-870-8200418

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition: PicoMaxx High Fidelity PCR System Mixture
10X PicoMaxx Reaction Buffer Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
PicoMaxx High Fidelity PCR System
H412 LONG-TERM (CHRONIC) AQUATIC HAZARD Category 3

Ingredients of unknown toxicity: PicoMaxx High Fidelity PCR System
10X PicoMaxx Reaction Buffer
Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 30 - 60%
Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 1 - 10%
Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 10 - 30%
Percentage of the mixture consisting of ingredient(s) of unknown acute oral toxicity: 1 - 10%

Ingredients of unknown ecotoxicity: 10X PicoMaxx Reaction Buffer
Contains 2% of components with unknown hazards to the aquatic environment

See Section 16 for the full text of the H statements declared above.
SECTION 2: Hazards identification

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

**Signal word**
- PicoMaxx High Fidelity PCR System: No signal word.
- 10X PicoMaxx Reaction Buffer: No signal word.

**Hazard statements**
- PicoMaxx High Fidelity PCR System: None known.
- 10X PicoMaxx Reaction Buffer: None known.

2.3 Other hazards

**Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII**
- PicoMaxx High Fidelity PCR System: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
- 10X PicoMaxx Reaction Buffer: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**Other hazards which do not result in classification**
- PicoMaxx High Fidelity PCR System: None known.
- 10X PicoMaxx Reaction Buffer: None known.
SECTION 2: Hazards identification

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

Type

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Substance of equivalent concern

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

Eye contact

- PicoMaxx High Fidelity PCR System
- 10X PicoMaxx Reaction Buffer

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Inhalation

- PicoMaxx High Fidelity PCR System
- 10X PicoMaxx Reaction Buffer

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Date of issue/Date of revision : 17/10/2022  Date of previous issue : 22/11/2019  Version : 3

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

**Suitable extinguishing media**

<table>
<thead>
<tr>
<th>PicoMaxx High Fidelity PCR System</th>
<th>Use an extinguishing agent suitable for the surrounding fire.</th>
</tr>
</thead>
<tbody>
<tr>
<td>10X PicoMaxx Reaction Buffer</td>
<td>Use an extinguishing agent suitable for the surrounding fire.</td>
</tr>
</tbody>
</table>
### SECTION 5: Firefighting measures

#### Unsuitable extinguishing media

**PicoMaxx High Fidelity PCR System**
- None known.

**10X PicoMaxx Reaction Buffer**
- None known.

#### 5.2 Special hazards arising from the substance or mixture

**Hazards from the substance or mixture**
- **PicoMaxx High Fidelity PCR System**: In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
- **10X PicoMaxx Reaction Buffer**: In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous combustion products**
- **PicoMaxx High Fidelity PCR System**: Decomposition products may include the following materials:
  - carbon dioxide
  - carbon monoxide
- **10X PicoMaxx Reaction Buffer**: Decomposition products may include the following materials:
  - carbon dioxide
  - carbon monoxide
  - nitrogen oxides
  - sulfur oxides
  - halogenated compounds
  - metal oxide/oxides

#### 5.3 Advice for firefighters

**Special protective actions for fire-fighters**
- **PicoMaxx High Fidelity PCR System**: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- **10X PicoMaxx Reaction Buffer**: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters**
- **PicoMaxx High Fidelity PCR System**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
- **10X PicoMaxx Reaction Buffer**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel**
- **PicoMaxx High Fidelity PCR System**: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spill material. Put on appropriate personal protective equipment.
- **10X PicoMaxx Reaction Buffer**: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spill material. Put on appropriate personal protective equipment.

**For emergency responders**
- **PicoMaxx High Fidelity PCR System**: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- **10X PicoMaxx Reaction Buffer**: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
SECTION 6: Accidental release measures

6.2 Environmental precautions:

PicoMaxx High Fidelity PCR System
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

10X PicoMaxx Reaction Buffer
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and material for containment and cleaning up:

Methods for cleaning up:

PicoMaxx High Fidelity PCR System
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. May be harmful to the environment if released. Dispose of spillages under controlled conditions.

10X PicoMaxx Reaction Buffer
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

6.4 Reference to other sections:

See Section 1 for emergency contact information.
See Section 8 for information on appropriate personal protective equipment.
See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling:

Protective measures:

PicoMaxx High Fidelity PCR System
Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

10X PicoMaxx Reaction Buffer
Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene:

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities:

Date of issue/Date of revision : 17/10/2022  Date of previous issue : 22/11/2019  Version : 3 6/18
SECTION 7: Handling and storage

Storage:

- PicoMaxx High Fidelity PCR System: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully reseated and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

- 10X PicoMaxx Reaction Buffer: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully reseated and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations:

- PicoMaxx High Fidelity PCR System: Industrial applications, Professional applications.

- 10X PicoMaxx Reaction Buffer: Industrial applications, Professional applications.

Industrial sector specific solutions:

- PicoMaxx High Fidelity PCR System: Not available.

- 10X PicoMaxx Reaction Buffer: Not available.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

<table>

PNECs
No PNECs available

8.2 Exposure controls

Appropriate engineering controls

Hygiene measures: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

9.1 Information on basic physical and chemical properties

Appearance

Physical state: PicoMaxx High Fidelity PCR System Liquid.

PicoMaxx High Fidelity 10X Reaction Buffer Liquid.

SECTION 10: Stability and reactivity

10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability

The product is stable.

10.3 Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid

No specific data.

10.5 Incompatible materials

May react or be incompatible with oxidising materials.

10.6 Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**Potential acute health effects**

**Inhalation**

No known significant effects or critical hazards.

**Ingestion**

No known significant effects or critical hazards.

**Skin contact**

No known significant effects or critical hazards.

**Eye contact**

No known significant effects or critical hazards.

**Symptoms related to the physical, chemical and toxicological characteristics**
SECTION 11: Toxicological information

Inhalation: PicoMaxx High Fidelity PCR System No specific data. 10X PicoMaxx Reaction Buffer No specific data.

Ingestion: PicoMaxx High Fidelity PCR System No specific data. 10X PicoMaxx Reaction Buffer No specific data.

Skin contact: PicoMaxx High Fidelity PCR System No specific data. 10X PicoMaxx Reaction Buffer No specific data.

Eye contact: PicoMaxx High Fidelity PCR System No specific data. 10X PicoMaxx Reaction Buffer No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure

Potential immediate effects: Not available.
Potential delayed effects: Not available.

Long term exposure

Potential immediate effects: Not available.
Potential delayed effects: Not available.

Potential chronic health effects

General: PicoMaxx High Fidelity PCR System No known significant effects or critical hazards. 10X PicoMaxx Reaction Buffer No known significant effects or critical hazards.

Carcinogenicity: PicoMaxx High Fidelity PCR System No known significant effects or critical hazards. 10X PicoMaxx Reaction Buffer No known significant effects or critical hazards.

Mutagenicity: PicoMaxx High Fidelity PCR System No known significant effects or critical hazards. 10X PicoMaxx Reaction Buffer No known significant effects or critical hazards.

Reproductive toxicity: PicoMaxx High Fidelity PCR System No known significant effects or critical hazards. 10X PicoMaxx Reaction Buffer No known significant effects or critical hazards.

### 12.4 Mobility in soil

- **Soil/water partition coefficient (Koc)**: Not available.
- **Mobility**: Not available.

### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
SECTION 12: Ecological information

12.6 Other adverse effects: No known significant effects or critical hazards.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

**Product**

Methods of disposal: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

**Hazardous waste**

Methods of disposal: The classification of the product may meet the criteria for a hazardous waste.

**Packaging**

Methods of disposal: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Special precautions: Dispose of material(s) and residues under controlled conditions. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

<table>

</tbody>
</table>

Additional information

14.6 Special precautions for user: Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to IMO instruments: Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

UK (GB)/REACH

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

Date of issue/Date of revision: 17/10/2022  Date of previous issue: 22/11/2019  Version: 3
SECTION 15: Regulatory information

### Chemical safety assessment

This product contains substances for which Chemical Safety Assessments might still be required.

#### EU regulations

**Industrial emissions (integrated pollution prevention and control) - Air**
- Not listed

**Industrial emissions (integrated pollution prevention and control) - Water**
- Not listed

#### International regulations

**Chemical Weapon Convention List Schedules I, II & III Chemicals**
- Not listed

**Montreal Protocol**
- Not listed

**Stockholm Convention on Persistent Organic Pollutants**
- Not listed

**Rotterdam Convention on Prior Informed Consent (PIC)**
- Not listed

**UNEP Aarhus Protocol on POPs and Heavy Metals**
- Not listed

#### Inventory list

- **Australia**: Not determined.
- **Canada**: Not determined.
- **China**: Not determined.

SECTION 15: Regulatory information

Eurasian Economic Union: Russian Federation inventory: Not determined.
Japan:
  Japan inventory (CSCL): Not determined.
  Japan inventory (ISHL): Not determined.
New Zealand: Not determined.
Philippines: Not determined.
Republic of Korea: Not determined.
Taiwan: All components are listed or exempted.
Thailand: Not determined.
Turkey: Not determined.
United States: All components are active or exempted.
Viet Nam: Not determined.

SECTION 16: Other information

Indicates information that has changed from previously issued version.
Abbreviations and acronyms:
- ATE = Acute Toxicity Estimate
- CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]
- DMEL = Derived Minimal Effect Level
- DNEL = Derived No Effect Level
- EUH statement = CLP-specific Hazard statement
- N/A = Not available
- PBT = Persistent, Bioaccumulative and Toxic
- PNEC = Predicted No Effect Concentration
- RRN = REACH Registration Number
- vPvB = Very Persistent and Very Bioaccumulative

Procedure used to derive the classification

Full text of abbreviated H statements

PicoMaxx High Fidelity PCR System

H302 Harmful if swallowed.
H315 Causes skin irritation.
H318 Causes serious eye damage.
H400 Very toxic to aquatic life.
H410 Very toxic to aquatic life with long lasting effects.
H412 Harmful to aquatic life with long lasting effects.

10X PicoMaxx Reaction Buffer

H315 Causes skin irritation.
H319 Causes serious eye irritation.

Full text of classifications

PicoMaxx High Fidelity PCR System

Acute Tox. 4 ACUTE TOXICITY - Category 4
Aquatic Acute 1 SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 1
Aquatic Chronic 1 LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 1
Aquatic Chronic 3 LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 3
Eye Dam. 1 SERIOUS EYE DAMAGE/EYE IRRITATION - Category 1
Skin Irrit. 2 SKIN CORROSION/IRRITATION - Category 2
SECTION 16: Other information

| 10X PicoMaxx Reaction Buffer | Eye Irrit. 2 | SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2 |
|                             | Skin Irrit. 2 | SKIN CORROSION/IRRITATION - Category 2 |
