Section 1. Identification

1.1 Product Identifier
Product name: NovoCyte Flow Cytometer Starter Kit, Part Number 8100020
Part no. (chemical kit): 8100020
Part no.: NovoRinse solution 872B603C
NovoFlow sheath fluid 891B601
Validation date: 8/31/2020

1.2 Relevant identified uses of the substance or mixture and uses advised against
Material uses: For research use only. Not for use in diagnostic procedures (RUO).

NovoRinse solution: 1x 500ml
NovoFlow sheath fluid: 1x 10L

1.3 Details of the supplier of the safety data sheet
Supplier/Manufacturer: Agilent Technologies, Inc.
5301 Stevens Creek Blvd
Santa Clara, CA 95051, USA
800-227-9770

1.4 Emergency telephone number
In case of emergency: CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture
OSHA/HCS status: NovoRinse solution
NovoFlow sheath fluid

Classification of the substance or mixture
Not classified.

2.2 GHS label elements
Signal word: NovoRinse solution
NovoFlow sheath fluid
No signal word.

Hazard statements: NovoRinse solution
NovoFlow sheath fluid
No known significant effects or critical hazards.

Precautionary statements
Prevention: NovoRinse solution
NovoFlow sheath fluid
Not applicable.
Section 2. Hazards identification

<table>

Section 3. Composition/information on ingredients

<table>
<thead>
<tr>
<th>Substance/mixture</th>
<th>NovoRinse solution</th>
<th>Mixture</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>NovoFlow sheath fluid</td>
<td>Mixture</td>
</tr>
</tbody>
</table>

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

Eye contact

<table>
<thead>
<tr>
<th>Substances/mixture</th>
<th>NovoRinse solution</th>
<th>NovoFlow sheath fluid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contact</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Inhalation

<table>
<thead>
<tr>
<th>Substances/mixture</th>
<th>NovoRinse solution</th>
<th>NovoFlow sheath fluid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contact</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Skin contact

<table>
<thead>
<tr>
<th>Substances/mixture</th>
<th>NovoRinse solution</th>
<th>NovoFlow sheath fluid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contact</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

Ingestion

<table>
<thead>
<tr>
<th>Substances/mixture</th>
<th>NovoRinse solution</th>
<th>NovoFlow sheath fluid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contact</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Date of issue: 08/31/2020
Section 4. First aid measures

5.2 Special hazards arising from the substance or mixture
Section 5. Fire-fighting measures

**Specific hazards arising from the chemical**
- NovoRinse solution
- NovoFlow sheath fluid

**Hazardous thermal decomposition products**
- NovoRinse solution
- NovoFlow sheath fluid

### 5.3 Advice for firefighters

**Special protective actions for fire-fighters**
- NovoRinse solution
- NovoFlow sheath fluid

**Special protective equipment for fire-fighters**
- NovoRinse solution
- NovoFlow sheath fluid

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel**
- NovoRinse solution
- NovoFlow sheath fluid

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

**For emergency responders**
- NovoRinse solution
- NovoFlow sheath fluid

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

### 6.2 Environmental precautions

- NovoRinse solution
- NovoFlow sheath fluid

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Section 6. Accidental release measures

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up : NovoRinse solution
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

NovoFlow sheath fluid
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures : NovoRinse solution
Put on appropriate personal protective equipment (see Section 8).

NovoFlow sheath fluid
Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene : NovoRinse solution
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

NovoFlow sheath fluid
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities : NovoRinse solution
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

NovoFlow sheath fluid
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright.
Section 7. Handling and storage

7.3 Specific end use(s)

Recommendations:

<table>

<td></td>
<td>Industrial applications, Professional applications.</td>
</tr>
</tbody>
</table>

Industrial applications, Professional applications.

Not applicable.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Exposure limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>None.</td>
<td></td>
</tr>
</tbody>
</table>

8.2 Exposure controls

Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

**Date of issue:** 08/31/2020
Section 10. Stability and reactivity

10.3 Possibility of hazardous reactions
- NovoRinse solution: Under normal conditions of storage and use, hazardous reactions will not occur.
- NovoFlow sheath fluid: Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid
- NovoRinse solution: No specific data.
- NovoFlow sheath fluid: No specific data.

10.5 Incompatible materials
- NovoRinse solution: May react or be incompatible with oxidizing materials.
- NovoFlow sheath fluid: May react or be incompatible with oxidizing materials.

10.6 Hazardous decomposition products
- NovoRinse solution: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- NovoFlow sheath fluid: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

11.1 Information on toxicological effects

- Acute toxicity
  Not available.

- Irritation/Corrosion
  Not available.

- Sensitization
  Not available.

- Mutagenicity
  Conclusion/Summary: Not available.

- Carcinogenicity
  Conclusion/Summary: Not available.

- Reproductive toxicity
  Conclusion/Summary: Not available.

- Teratogenicity
  Conclusion/Summary: Not available.

- Specific target organ toxicity (single exposure)
  Not available.

- Specific target organ toxicity (repeated exposure)
  Not available.

- Aspiration hazard
  Not available.

- Information on the likely routes of exposure
  NovoRinse solution: Not available.
  NovoFlow sheath fluid: Not available.

- Potential acute health effects

Date of issue: 08/31/2020
## Section 11. Toxicological information

### Inhalation
- **NovoRinse solution**: No known significant effects or critical hazards.
- **NovoFlow sheath fluid**: No known significant effects or critical hazards.

### Skin contact
- **NovoRinse solution**: No known significant effects or critical hazards.
- **NovoFlow sheath fluid**: No known significant effects or critical hazards.

### Ingestion
- **NovoRinse solution**: No known significant effects or critical hazards.
- **NovoFlow sheath fluid**: No known significant effects or critical hazards.

### Eye contact
- **NovoRinse solution**: No known significant effects or critical hazards.
- **NovoFlow sheath fluid**: No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

### Numerical measures of toxicity

#### Acute toxicity estimates
- **N/A**

**Date of issue**: 08/31/2020
Section 12. Ecological information

12.1 Toxicity
Not available.

12.2 Persistence and degradability
Not available.

12.3 Bioaccumulative potential
Not available.

12.4 Mobility in soil
Soil/water partition coefficient ($K_{OC}$) : Not available.

12.5 Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods
Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSOAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / IATA : Not regulated.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to IMO instruments : Not available.
Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations

TSCA 8(a) CDR Exempt/Partial exemption: Not determined
Commerce control list precursor: Sodium fluoride

Clean Water Act (CWA) 311: Potassium hydroxide; Sodium fluoride

Clean Air Act Section 112
(b) Hazardous Air Pollutants (HAPs): Not listed

Clean Air Act Section 602
Class I Substances: Not listed

Clean Air Act Section 602
Class II Substances: Not listed

DEA List I Chemicals (Precursor Chemicals): Not listed
DEA List II Chemicals (Essential Chemicals): Not listed

SARA 302/304
Composition/information on ingredients
No products were found.

SARA 304 RQ: Not applicable.

SARA 311/312
Classification
NovoRinse solution: Not applicable.
NovoFlow sheath fluid: Not applicable.

Composition/information on ingredients
No products were found.

State regulations

Massachusetts: None of the components are listed.
New York: None of the components are listed.
New Jersey: None of the components are listed.
Pennsylvania: None of the components are listed.

California Prop. 65
This product does not require a Safe Harbor warning under California Prop. 65.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals
Not listed.

Montreal Protocol
Not listed.

Stockholm Convention on Persistent Organic Pollutants
Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)
Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals
Not listed.

Date of issue: 08/31/2020
Section 15. Regulatory information

Inventory list

Australia : All components are listed or exempted.
Canada : All components are listed or exempted.
China : All components are listed or exempted.
Europe : All components are listed or exempted.
Japan : Japan inventory (ENCS): All components are listed or exempted.
Japan inventory (ISHL): All components are listed or exempted.
New Zealand : All components are listed or exempted.
Philippines : All components are listed or exempted.
Republic of Korea : All components are listed or exempted.
Taiwan : All components are listed or exempted.
Thailand : Not determined.
Turkey : Not determined.
United States : All components are active or exempted.
Viet Nam : All components are listed or exempted.

Section 16. Other information

History

Date of issue : 08/31/2020
Date of previous issue : 04/09/2020
Version : 2.1

Key to abbreviations

ATE = Acute Toxicity Estimate
BCF = Bioconcentration Factor
GHS = Globally Harmonized System of Classification and Labelling of Chemicals
IATA = International Air Transport Association
IBC = Intermediate Bulk Container
IMDG = International Maritime Dangerous Goods
LogPow = logarithm of the octanol/water partition coefficient
N/A = Not available
UN = United Nations
