### Section 8. Exposure controls and personal protection

#### **Control parameters**

Occupational exposure limits

Ingredient name	Exposure limits		
End Repair-A Tailing Enzyme Mix Glycerol	Safe Work Australia (Australia, 12/2019). TWA: 10 mg/m³ 8 hours.		
T4 DNA Ligase Glycerol	Safe Work Australia (Australia, 12/2019). TWA: 10 mg/m³ 8 hours.		
Ligation Buffer			
Polyethylene glycol	DFG MAC-values list (Germany, 8/2020).  PEAK: 400 mg/m³, 4 times per shift, 15 minutes. Form: inhalable fraction  TWA: 200 mg/m³ 8 hours. Form: inhalable fraction		
Glycerol	Safe Work Australia (Australia, 12/2019). TWA: 10 mg/m³ 8 hours.		
Herculase II Fusion DNA Polymerase			
Glycerol	Safe Work Australia (Australia, 12/2019). TWA: 10 mg/m³ 8 hours.		
SureSelect RNase Block			
Glycerol	Safe Work Australia (Australia, 12/2019). TWA: 10 mg/m³ 8 hours.		
SSel XT HS and XT Low Input Cancer All-In-One Lung, 96 Reactions			
Glycerol	Safe Work Australia (Australia, 12/2019). TWA: 10 mg/m³ 8 hours.		

## Appropriate engineering controls

**Environmental exposure** controls

- : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### **Individual protection measures**

 Date of issue/Date of revision
 : 19/04/2022
 Date of previous issue
 : 07/03/2022
 Version
 : 4.1
 35/65

### Section 8. Exposure controls and personal protection

#### **Hygiene measures**

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

#### Eye/face protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

#### **Skin protection**

**Hand protection** 

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

#### **Body protection**

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### Other skin protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### **Respiratory protection**

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

# Section 9. Physical and chemical properties and safety characteristics

#### **Mobility in soil**

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects : No known significant effects or critical hazards.

Date of issue/Date of revision : 19/04/2022 Date of previous issue : 07/03/2022 Version : 4.1 63/65

## Section 13. Disposal considerations

#### **Disposal methods**

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## **Section 14. Transport information**

**ADG / IMDG / IATA** : Not regulated as Dangerous Goods according to the ADG Code .

Special precautions for user : Transport within user's premises: always transport in closed containers that are

upright and secure. Ensure that persons transporting the product know what to do in

the event of an accident or spillage.

Transport in bulk according: Not available.

to IMO instruments

## Section 15. Regulatory information

Standard for the Uniform Scheduling of Medicines and Poisons

**Model Work Health and Safety Regulations - Scheduled Substances** 

No listed substance

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

**Montreal Protocol** 

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals** 

Not listed.

**Inventory list** 

**Australia** : Not determined. : Not determined. Canada China : Not determined. : Not determined. **Europe** 

: Japan inventory (CSCL): Not determined. Japan

Japan inventory (ISHL): Not determined.

**New Zealand** : Not determined. **Philippines** : Not determined. Republic of Korea : Not determined.

**Taiwan** : All components are listed or exempted.

**Thailand** : Not determined.

Date of issue/Date of revision : 19/04/2022 : 07/03/2022 Version: 4.1 64/65 Date of previous issue

SureSelect XT Low Input Reagent kit, index 97-192 + SSel Cancer All-In-One Lung Panel, 96rxn, Part Number G9708R

## Section 15. Regulatory information

Turkey : Not determined.
United States : Not determined.
Viet Nam : Not determined.

## Section 16. Any other relevant information

**History** 

Date of issue/Date of : 19/04/2022

revision

Date of previous issue : 07/03/2022

Version : 4.1

**Key to abbreviations** : ADG = Australian Dangerous Goods

ADR = The European Agreement concerning the International Carriage of

Dangerous Goods by Road ATE = Acute Toxicity Estimate BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships,

1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)

N/A = Not available

SUSMP = Standard Uniform Schedule of Medicine and Poisons

UN = United Nations

#### Procedure used to derive the classification

Classification	Justification
5X Herculase II Reaction Buffer	
SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A	Calculation method

References : Not available.
