## SAFETY DATA SHEET

1/11

Magnis SureSelect Cancer Custom Probe Plate Tier 2 Pre-filled Single Well Format, 32 Reactions\_96 Reactions

### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

-	
1.1 Product identifier	
Product name	: Magnis SureSelect Cancer Custom Probe Plate Tier 2 Pre-filled Single Well Format, 32 Reactions_96 Reactions
Part no.	: 5282-0181, 5282-0182
1.2 Relevant identified us	ses of the substance or mixture and uses advised against
Identified uses	<ul> <li>Analytical reagent.</li> <li>For research use only.</li> <li>4 x 0.025 ml Magnis SureSelect Cancer Custom Probe Plate Tier 2 Pre-filled Single Well Format, 32 Reactions (4 Runs) 5282-0181</li> <li>12 x 0.025 ml Magnis SureSelect Cancer Custom Probe Plate Tier 2 Pre-filled Single Well Format, 96 Reactions (12 Runs) 5282-0182</li> </ul>
Uses advised against	: Not for use in diagnostic procedures.

### 1.3 Details of the supplier of the safety data sheet

Agilent Technologies LDA UK Ltd. 5500 Lakeside Cheadle Royal Business Park, Cheadle, Cheshire, SK8 3GR United Kingdom Tel: +44 (0) 345 712 5292 e-mail address of person : pdl-msds\_author@agilent.com responsible for this SDS

#### 1.4 Emergency telephone number

Emergency telephone : CHEMTREC®: +(44)-870-8200418 number (with hours of operation)

### **SECTION 2: Hazards identification**

 2.1 Classification of the substance or mixture

 Product definition
 : Mixture

 Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

 Not classified.

The product is not classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.

Ingredients of unknown	: Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation
toxicity	toxicity: 1 - 10%

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Date of issue/Date of revision	: 27/03/2024 Date of previous issue : No previous validation Version : 1

### **SECTION 2: Hazards identification**

Disposal	: Not applicable.
Supplemental label elements	: Safety data sheet available on request.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	: Not applicable.
Special packaging require	ments
Containers to be fitted with child-resistant fastenings	: Not applicable.
Tactile warning of danger	: Not applicable.
2.3 Other hazards	
Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII	: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
Other hazards which do not result in classification	: None known.

### **SECTION 3: Composition/information on ingredients**

N 41- - - -

Product/ingredient name	Identifiers	%	Classification	Туре
Glycerol	UK (GB) REACH #: Annex V REACH #: Annex V EC: 200-289-5 CAS: 56-81-5	≤3	Not classified.	[1]
			See Section 16 for the full text of the H statements declared above.	

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

0.141

[1] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

SECTION 4: First ai	d measures
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.
4.2 Most important sympto	ms and effects, both acute and delayed
Over-exposure signs/sym	<u>ptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
4.3 Indication of any immed	liate medical attention and special treatment needed
Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>
Specific treatments	: No specific treatment.
SECTION 5: Firefigh	nting measures
5.1 Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
5.2 Special hazards arising	from the substance or mixture
Hazards from the substance or mixture	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous combustion products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide
5.3 Advice for firefighters	
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire- fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
SECTION 6: Accide	ntal release measures
6.1 Personal precautions, p	protective equipment and emergency procedures
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
For emergency responders	: If specialised clothing is required to deal with the spillage, take note of any information Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**6.2 Environmental precautions :** Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### 6.3 Methods and material for containment and cleaning up

Date of issue/Date of revision	: 27/03/2024	Date of previous issue	: No previous validation	Version	:1	3/11
--------------------------------	--------------	------------------------	--------------------------	---------	----	------

### SECTION 6: Accidental release measures

Methods for cleaning up	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

**Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### 7.3 Specific end use(s)

Recommendations	: Industrial applications, Professional applications.
Industrial sector specific solutions	: Not available.

### **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

#### **Occupational exposure limits**

Product/ingredient name	Exposure limit values
Glycerol	EH40/2005 WELs (United Kingdom (UK), 1/2020). TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Mist
Biological exposure indices	
No exposure indices known.	
monitoring procedures guida	ence should be made to appropriate monitoring standards. Reference to national nce documents for methods for the determination of hazardous substances will be required.
DNELs/DMELs No DNELs/DMELs available.	
PNECs No PNECs available	
8.2 Exposure controls	
	general ventilation should be sufficient to control worker exposure to airborne minants.
Date of issue/Date of revision : 27/03/	/2024 Date of previous issue : No previous validation Version : 1 4/11

### **SECTION 8: Exposure controls/personal protection**

Individual protection mea	<u>sures</u>
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### 9.1 Information on basic physical and chemical properties

temperature

Appearance				
Physical state	:	Liquid.		
Colour	:	Not available.		
Odour	:	Not available.		
Odour threshold	:	Not available.		
Melting point/freezing point	:	0°C		
Initial boiling point and boiling range	:	100°C		
Flammability	:	Not applicable.		
Upper/lower flammability or explosive limits	:	Not available.		
Flash point	:		С	losed cup
		Ingredient name °C		Method
		glycerol -		-
Auto-ignition	:	Ingredient name	Τ	°C

#### 9.2 Other information

Median particle size

No additional information.

### **SECTION 10: Stability and reactivity**

: Not applicable.

10.1 Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: The product is stable.
10.3 Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: No specific data.
10.5 Incompatible materials	: May react or be incompatible with oxidising materials.
10.6 Hazardous	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Glycerol	LD50 Oral	Rat	12600 mg/kg	-

### **SECTION 11: Toxicological information**

Potential delayed effects	: Not available.
Potential chronic health e	effects
<b>Conclusion/Summary</b>	: Not available.
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Reproductive toxicity	: No known significant effects or critical hazards.

### **SECTION 12: Ecological information**

### 12.1 Toxicity

		•	
Product/ingredient name	Result	Species	Exposure
Glycerol	Acute LC50 54000 mg/l Fresh water	Fish - Trout - Oncorhynchus mykiss	96 hours
Conclusion/Summary	Not available.		

### 12.2 Persistence and degradability

Product/ingredient name	Test	Result	Dose	Inoculum
Glycerol	301D Ready Biodegradability - Closed Bottle Test	93 % - 30 days	-	-

**Conclusion/Summary** : Not available.

### 12.3 Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
Glycerol	-1.76	-	Low

#### 12.4 Mobility in soil

Soil/water partition coefficient (Koc)	: Not available.		
Mobility	: Not available.		

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

13.1 Waste treatment met	nods					
Product						
Methods of disposal		of this proc requiremen regional loo via a licens	duct, solutions and any b nts of environmental pro cal authority requiremer sed waste disposal cont	e avoided or minimised who by-products should at all tir tection and waste disposa ts. Dispose of surplus and ractor. Waste should not to th the requirements of all a	nes comply with t l legislation and a d non-recyclable p be disposed of un	he ny products treated to
Hazardous waste			present knowledge of the defined by EU Directive	e supplier, this product is 2008/98/EC.	not regarded as h	azardous
Packaging						
Date of issue/Date of revision	:	27/03/2024	Date of previous issue	: No previous validation	Version : 1	8/11

### **SECTION 13: Disposal considerations**

Methods of disposal	The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
Special precautions	: This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

### **SECTION 14: Transport information**

	ADR/RID	IMDG	ΙΑΤΑ
14.1 UN number	Not regulated.	Not regulated.	Not regulated.
14.2 UN proper shipping name	-	-	-
14.3 Transport hazard class(es)	-	-	-
14.4 Packing group	-	-	
14.5 Environmental hazards	No.	No.	No.

#### **Additional information**

#### **14.6 Special precautions** for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7 Transport in bulk** : Not available. according to IMO instruments

### **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>UK (GB)/REACH</u>

### Annex XIV - List of substances subject to authorisation

#### Annex XIV

None of the components are listed.

#### Substances of very high concern

None of the components are listed.

### **Ozone depleting substances**

Not listed.

### Prior Informed Consent (PIC)

Not listed.

#### Persistent Organic Pollutants Not listed.

# Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

No listed substance

#### • . • . ...

SECTION 15: Regu	latory information
Label	: Not applicable.
Seveso Directive	
This product is not controlle	ed under the Seveso Directive.
EU regulations	
Industrial emissions (integrated pollution prevention and control) - Air	: Not listed
Industrial emissions (integrated pollution prevention and control) - Water	: Not listed
15.2 Chemical safety assessment	: This product contains substances for which Chemical Safety Assessments might still be required.
International regulations	
Chemical Weapon Conve Not listed.	ntion List Schedules I, II & III Chemicals
Montreal Protocol Not listed.	
Stockholm Convention or Not listed.	n Persistent Organic Pollutants
Rotterdam Convention or Not listed.	n Prior Informed Consent (PIC)
UNECE Aarhus Protocol of Not listed.	on POPs and Heavy Metals
Inventory list	
United States	: All components are active or exempted.
SECTION 16: Other	information
Indicates information that	t has changed from previously issued version.
Abbreviations and acronyms	<ul> <li>ATE = Acute Toxicity Estimate CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008] DMEL = Derived Minimal Effect Level DNEL = Derived No Effect Level EUH statement = CLP-specific Hazard statement N/A = Not available PBT = Persistent, Bioaccumulative and Toxic</li> </ul>
	PNEC = Predicted No Effect Concentration

#### Procedure used to derive the classification

	Classification	Justification
١	Not classified.	

vPvB = Very Persistent and Very Bioaccumulative

RRN = REACH Registration Number

#### Full text of abbreviated H statements

Not applicable.

#### **Full text of classifications**

Not applicable.

### **SECTION 16: Other information**
